PROFILE

Full-stack engineer with 10 years of experience and a focus on frontend architecture. Leads a team of 4-6 engineers, owning architectural decisions, PR reviews, mentoring, and technical planning. Builds enterprise applications with Angular, React/Next.js, and TypeScript, with end-to-end ownership of C#.NET 9 APIs and hands-on Node.js/NestJS backend experience.

PROFESSIONAL EXPERIENCE

Frontend Lead Developer | iteamSA

Jan 2022 - Present | Athens

- Lead a team of 4-6 engineers, owning frontend architecture, PR reviews, mentoring, and technical planning.
- Built and deployed C#.NET 9 APIs with full end-to-end ownership, from implementation through deployment.
- Defined Clean Architecture boundaries and library selection for an Angular application.
- Designed an Nx monorepo integrating React web and React Native mobile applications with shared frontend capabilities.
- Built a reusable Stencil.js component library to standardize UI patterns across products.
- Implemented offline-first PWA capabilities and microfrontend patterns for enterprise applications.
- Set up Azure DevOps CI/CD, Azure CDN delivery, and application environment management.
- Built Node.js/NestJS services and CLI tools to automate recurring developer workflows.
- Built internal AI prototypes: a code-review assistant, an Azure-connected MCP server, and a Python RAG chat evaluated with RAGAS and presented for internal adoption.

Software Engineer | Wappier

Jan 2021 - Dec 2021 | Athens

- Built production React/Next.js microfrontends and server-rendered applications.
- Developed GraphQL middleware, custom resolvers, and real-time subscriptions connecting frontends with Strapi CMS.
- Developed supporting Node.js/NestJS REST services and containerized workflows with Docker.
- Worked on React Native and Next.js applications in an Nx monorepo with a shared GraphQL layer for web and mobile.

Software Developer | Iconplatforms

Jan 2017 - Jan 2021 | Athens

- Delivered loyalty, e-commerce, PWA, and hybrid mobile applications with Angular, AngularJS, Ionic, and React.
- Migrated legacy AngularJS applications to Angular and contributed LoopBack/Node.js middleware and REST APIs.
- Created Node.js/NestJS utilities and CLI scripts to automate recurring developer tasks.

Independent Software Developer | Selected Freelance Work

Mar 2016 - Present | Athens

- Build web and mobile applications with React, Next.js, Angular, React Native, and Node.js.
- Own architecture, implementation, deployment, and iteration for independently developed applications.

SELECTED PROJECTS

ktismaLab - Renovation Planning Platform | [Live application](#)

Solo-built web product that turns renovation briefs and photos into organized, costed plans. Includes AI-assisted suggestions and shareable plan snapshots for contractor quotes.

TypeScript, React, NestJS, Prisma, Supabase

Personal Technical Blog | [Read blog](#)

Write technical articles sharing practical explanations and development experience across frontend development and software engineering.

Technical writing, knowledge sharing

Loco CLI | [Source code](#)

Command-line tool for synchronizing localization files and reducing manual translation-management work.

Node.js, TypeScript/JavaScript, Transloco

RAG AI with Go | [Source code](#)

Document retrieval and question-answering project using local embeddings and LLM inference through Ollama, with ChromaDB as the vector store.

Go, Ollama, ChromaDB, RAG

TECHNICAL SKILLS

Frontend: TypeScript, JavaScript, Angular, React, Next.js, React Native, Ionic, Stencil.js

Architecture: Design systems, microfrontends, Nx monorepos, SSR/ISR, BFF, state architecture, PWA

Backend and data: C#, .NET 9, Node.js, NestJS, Express.js, REST, GraphQL, PostgreSQL, MongoDB, Prisma

Quality: Jest, React Testing Library, Cypress, WAI-ARIA, Lighthouse, Core Web Vitals

Delivery: Azure DevOps, Docker, CI/CD, Azure CDN, GitHub Actions

Applied AI: LLM integrations, RAG, RAGAS evaluation, MCP, Ollama, ChromaDB, OpenAI API

Additional technologies: Python, Go; working familiarity with Rust

LANGUAGES

Greek: Native | **English:** Professional working proficiency

EDUCATION

Bachelor - Electronic Engineering

Technological Educational Institute of Crete, Chania | 2005 - 2014
